## ***Weekend in Lithuania***

### ***Trakai-Vilnius Tour***

Trakai – the former ancient capital of Lithuania that began to emerge as a town already in the 13th century and is the gateway to the south-eastern part of Lithuania. It is the only (Gothic) castle on water throughout Eastern Europe, built in extreme conditions – on Lake Galvė.

In addition, Trakai is a unique centre of Karaite community, and the national dish “kibinai” is the key to the local culinary heritage. You will see the castle, the Old Town, the Church of the Nativity of the Blessed Virgin, the Devil’s Pit and the Hill of Angels, an archaeological reserve. In spare time you will be able to try Karaite cuisine in one of the local restaurants, buy some souvenirs, go boating or for a sail on a catamaran, enjoy the beauty of nature and purity of water.

The next day – bus and walking tour of Vilnius. You will see the Old Town, which is one of the biggest in Eastern Europe and was inscribed in UNESCO World Heritage List in 1994.

Architecture that combines the Gothic, Renaissance, Baroque and Classical elements will impress you with an unusual mix of several different styles and a merge into a unified aesthetic whole. You will visit one of the oldest universities in Western Europe, Vilnius University. You will admire churches, squares, narrow streets and temples of various confessions (the Cathedral, the Gates of Dawn, Church of Ss. Peter and Paul, Gediminas Castle, Town Hall Square, St. Anne’s Church, Bernardine Monastery). You will be able to go to the museum of your choice or visit Park of Europe, if you wish.

Then, we will be off to the biggest shopping centre “Akropolis”, where you will be able to have lunch, make the necessary purchases, go to the cinema or go skating.

## ***Kaunas-Vilnius Tour***

Kaunas – former capital and second largest city of Lithuania.

Kaunas incorporates the architectural features of several eras and stands out with its compact and well-preserved Old Town with many valuable cultural and architectural monuments: Kaunas Castle, Kaunas Cathedral of the Annunciation, Presidential Palace, Town Hall Square, Church of Vytautas the Great (the oldest and the most valuable church in Kaunas), Church of the Resurrection of Christ (one can admire the bird's-eye view of the city from its observation point), the tomb of St. Francis Xavier and the Jesuit Monastery, Church of Holy Trinity. During the tour you will be able to visit Botanical Gardens (in spring-summer) or the zoo, Pažaislis Monastery. Kaunas has many museums (the guide will help you pick those of interest to you): M.K.Čiurlionis Museum / Devil Museum / Diamond Museum / T.Ivanauskas Museum of Zoology / Museum of Deportation and Resistance / Perkūnas House / IXth Fort. You will also have free time to wander the cozy streets of the city and to try Lithuanian dishes in one of the local restaurants.

The next day we will offer a bus and walking sightseeing tour of Vilnius.

## ***Druskininkai-Vilnius Tour***

The town of Druskininkai will make an indelible impression on you. You will be able to visit the unique park-museum of Soviet sculptures Grūtas and try mineral water from a well, stroll by the River Nemunas, and also go to the local waterpark with saunas, swimming pools, waterslides (up to 212 metres), artificial beach and beauty parlour.

The next day we will offer a bus and walking sightseeing tour of Vilnius.

## ***Šiauliai-Vilnius Tour***

The one of a kind Hill of Crosses near Šiauliai has yet left no one indifferent (on our way there we will stop to see several smaller yet no less beautiful churches). Since the beginning of the 19th century people leave crosses there praying for help or thanking for the blessings in their lives. At present there are more than 20.000 crosses there – both works of art of craftsmen and simple wooden crosses made by ordinary people. There you will find the cross of Pope John Paul II hoisted during his visit to Lithuania in 1993.

The next day we will offer a bus and walking sightseeing tour of Vilnius.

## ***Thematic Tours***

### ***Tour for Fans of Water Activities***

A tour for those who want to relax and recover their strength. Water sports, sauna, SPA and many other attractions will leave a lasting impression on those who love water activities. You will also go to the Curonian Spit and Palanga where you will be amazed by the Sea Museum and Dolphinarium, the

Amber Museum and Botanical Park, the sundial, and a fisherman's homestead; you can go boating, relax on the dunes or stroll along the shore of the Baltic Sea, if you wish.

No holiday in Lithuania can go without a trip to Trakai (a visit to the island castle), without a swim in the cleanest Lake Galvė, without boats or catamarans or without a waterpark "Trasalis" that provides a great variety of services.

### ***Wellness Tour***

The rhythm of modern life, rapid solution of endless complex problems robs us of so much energy. But sometimes one longs to escape from the daily routine and take a break from worries. One longs to simply enjoy cozy atmosphere and SPA procedures, to pamper oneself, to regain lost strength and relax both physically and mentally.

Allow yourself a bike ride on the scenic route or take part in a ski race; enjoy SPA procedures in the best centres in Lithuania: a professional massage, a swimming pool, aromatic baths or saunas will bring you back to life, you will feel weightless and enjoy the intoxicating oriental flavour and luxury.

## Tour for Adrenaline Junkies

This is a tour for daredevils willing to test their strength and eager for risks and difficulties. A feeling of triumph will give you a chance to forget routine and minor problems.

We offer hot-air balloon flights, parachute jumping or paragliding, a visit to the Lithuanian Museum of Ethnocosmology or a visit to "The Bear Claw" Park. Admirers of wildlife and outdoor activities will be able to test themselves here on the track located at the height of 15 m by walking up to six routes of varying difficulty.

The Curonian Spit is a unique creation of man and nature. In the course of two days you will be able to take part in yacht or catamaran racing, in interactive game "GPS Challenge: the Legend of Infoera", engage in archery, photography or go ice fishing.

We will offer you to go round the Curonian Spit by a steamboat and admire the scenery of Neringa, see the 130-year-old lighthouse, cook a fish soup and visit the bird ringing station. In Palanga you will be able to go to the Amber Museum, Botanical Park, stroll on the seashore and on the way back go up the Hill of Witches.

## ***Tour for Lovers of the Great Outdoors who appreciate natural beauty and country life***

Deep harmony between man and nature – that's a real holiday. Lithuania is a picturesque country with a rich and very beautiful nature, full of great and minor, simple and extraordinary miracles. This tour will give you an opportunity to relax from the hustle and bustle of the city in the wild and cozy corners of nature.

You will be able to appreciate the flavour of small Lithuanian towns, e.g. Kernavė, Dūkštos, Sudervė, Šalčininkai,

Rumšiškės (their tiny churches, castles, monuments, museums, etc).

In the village of Strepeikiai we will pop into the Museum of Honey. Palūšė Church and bell tower – one of the most beautiful and old monuments of wooden architecture in Lithuania – will not leave you indifferent.

You will learn the secrets of bread baking, flax processing, candle making, pottery and try making the Lithuanian national cake “šakotis”.

In Trakai you will get to know the history and lifestyle of Karaites, see the Old Town, the Church of the Nativity of the Blessed Virgin, the island castle with the Museum of History. We are sure to offer you a presentation of Lithuanian cuisine during a theme night with live Lithuanian and Polish music.

## ***Vilnius – Lithuanian Capital of Culture***

Vilnius is a unique city that boasts medieval castles, unique architecture of the Old Town, a great number of regularly held concerts and performances, luxurious restaurants and clubs.

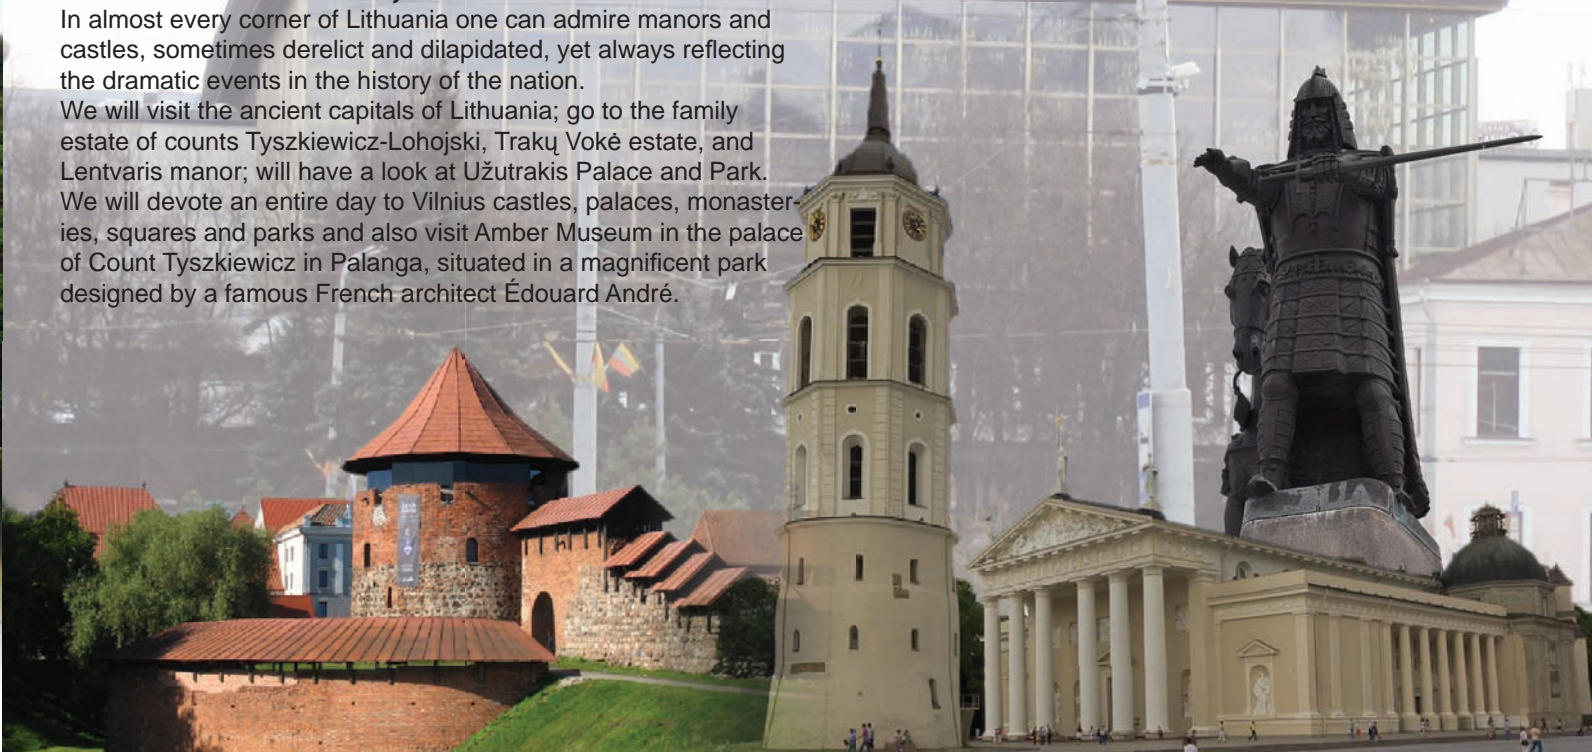

Within a few days you will have time to feel the colour of the Old Town (with its churches, squares and streets, cathedrals, castles, belfries, monasteries, bastions and palaces), visit a few museums (Vilnius Ethnography Museum, National Museum, Museum of Genocide Victims, etc). Stroll through the Park of Europe – one of the most impressive museums of modern art. We will also suggest going to the theatre, opera or a concert.

## ***Lithuanian Manors, Parks and Castles***

In almost every corner of Lithuania one can admire manors and castles, sometimes derelict and dilapidated, yet always reflecting the dramatic events in the history of the nation.

We will visit the ancient capitals of Lithuania; go to the family estate of counts Tyszkiewicz-Lohojski, Trakų Vokė estate, and Lentvaris manor; will have a look at Užutrakis Palace and Park. We will devote an entire day to Vilnius castles, palaces, monasteries, squares and parks and also visit Amber Museum in the palace of Count Tyszkiewicz in Palanga, situated in a magnificent park designed by a famous French architect Édouard André.

## ***Churches and Cemeteries of Lithuania***

Churches in Lithuania are not just places of pilgrimage but also living monuments, quite accurately and profoundly reflecting the history of the region and nation. Many small towns are spotted with domes of cathedrals, churches and temples. Almost every chapel is a real work of art. All of this is spiritual heritage belonging to people of all confessions. The art of Romantic poets Adam Mickiewicz and Juliusz Slowacki connected memories of Vilnius of Polish, Lithuanian and Belarusian peoples forever; the heart of the Polish

Marshal Jozef Pilsudski is buried in Vilnius Rasos Cemetery.

It is impossible to visit all holy places in Lithuania in just a few days.

However, we suggest at least glimpsing at the sacramental heritage.

You will visit the most beautiful churches of Vilnius: Church of the

Holy Mother of God, St. Anne's Church, Church of Ss. Peter and Paul,

St. Michael's Church that houses the Museum of History of Religion,

Bernardine Church – one of the biggest Gothic churches in Vilnius

(church, yard, basement); you will also visit Antakalnis Cemetery,

Rasos Cemetery and Rokantiškės Cemetery.

## **UNESCO World Heritage in Lithuania**

Republic of Lithuania was admitted to UNESCO in 1991. One of the tasks of the organisation is preservation of spiritual heritage for future generations.

Between the 12th and 18th century Vilnius, political centre of the Grand Duchy of Lithuania, had a great impact on the cultural and architectural development of Eastern Europe. Despite all invasions and partial destructions the city has preserved an impressive complex of buildings of the Gothic, Renaissance, Baroque and Classical periods, as well as medieval buildings and natural resources. All of that contributed to the inscription of the historic city centre in the UNESCO World Heritage List in 1994.

During the tour you will visit one of the oldest universities in Western Europe, Vilnius University. You will admire churches, squares, narrow streets and temples of various confessions (the Cathedral, the Gates of Dawn, Church of Ss. Peter and Paul, Gediminas Castle, Town Hall Square, St. Anne's Church, Bernardine Monastery, Rasos Cemetery). The Curonian Spit, a unique creation of man and nature, was inscribed in the UNESCO World Heritage List in 2000 and is a peninsula (about 98 km in length and 0,4-4 km in width) stretched on the territory of two countries – Lithuania and Russia (Kaliningrad region). Lithuania owns 50 km of the north of the peninsula. We will also visit the Sea Museum, Dolphinarium, watch how a sundial works or take a boat trip (try cooking a fish soup and visit the bird ringing station).

Kernavė, a small place that witnesses unique cultural traditions of extinct civilizations, was inscribed in the UNESCO World Heritage List in 2004. Kernavė is the only town in the Baltic States located on five hill forts; it is also the first capital of Lithuania. Moreover, Kernavė has a status of National Reserve, where archaeological excavations take place continually for almost 30 years now, and the local Museum of Archaeology and History has a great number of unique artefacts.

## ***Lithuania in a New Way – Discover Lithuania for Yourself***

An attempt to find, to get to know or  
at least to touch “other” Lithuania is

a serious intellectual challenge for those who want  
to learn something new. Lithuania is a country with  
many old, long forgotten and very young, time-  
varying stages of history.

You will see things no one else will show you: the  
Sudervė Bell, the church and the oldest oak-tree in  
Dūkštai, Ukmergė Church of Ss. Peter and Paul and  
the bell tower.

You will visit Zarasai – a place that is famous not  
only for its natural resources (a great number of  
lakes) but also forms valuable cultural heritage  
(Sėlių Square, Neo-Baroque Church of the  
Assumption of the Blessed Virgin Mary, a unique  
spot – Didžioji Island on Lake Zarasas). We will  
also stop in a small place called Stelmužė (Tower of  
Slaves, Church of the Holy Cross – now museum of  
ecclesiastical art,  
a bell tower), drop by at Kvintiškės to see the place  
of the Visitation of the Blessed Virgin Mary.  
We suggest having a look at post-Soviet Vilnius – a  
city with imprints of wild capitalism. You will visit  
Verkiai Regional Park, recreational zone “Žalieji  
ežerai” (“the Green Lakes”), suburbs: Žvėrynas,  
Lazdynai and Kalvarijų, Antakalnis, Montmartre of  
Vilnius – Užupis.
