

BAAN THAI
SPA

WELCOME TO OUR HOME

Escape to a sanctuary of relaxation and serenity at Baan Thai Spa. With a backdrop of verdant tropical gardens, our spa is nestled on the side of a dramatic cliff, 120 metres above sea level. Sweeping views of Taling Ngam Bay and the ocean greet you from every vantage point, while inside a soothing haven awaits.

Baan Thai translates as ‘Thai home’ and at Baan Thai Spa we have created a warm and inviting home where you can enjoy a range of luxurious treatments and therapies. From the centuries-old techniques of a Thai yoga massage to the advanced skin care expertise of a Sothys' facial, each of our treatments is led by expert therapists and is designed to bring genuine benefits to our guests.

Whether you select a full day of pampering, a rejuvenating body massage or an express pedicure, our spa offers a unique space to indulge, relax and renew. A place where time stops and your cares float away, it is the perfect antidote to the stresses of today's hectic lifestyle.

THE TEA RITUAL

At Baan Thai Spa, our philosophy is inspired by the ancient traditions of the Orient. We strive to create spa journeys that are a gentle reminder of days where powerful yet simple rituals were performed for the purpose of healing and restoration. It is for this reason that we end every treatment with the Asian ritual of the tea ceremony.

A carefully orchestrated ritual with many layers of symbolism, the traditional tea ceremony is designed to promote harmony with nature, discipline the mind and quiet the heart. It also exposes you to the many healing properties that can be obtained from a personalised concoction of herbal tinctures.

At Baan Thai Spa we have selected a range of teas from across Asia, including Harnn's Tisane Collection, for use in our ritual. With white mulberry leaf as the primary ingredient, this herbal tea range has been designed to restore your body's natural balance and to soothe and stimulate your senses.

AN INVITING SANCTUARY

At Baan Thai Spa, we believe the environment we create is just as important as the treatments and products we offer. Guests need to feel relaxed and inspired by their surroundings to enjoy a complete experience. With the warmth of a Thai home, our Spa blends modern and traditional Thai design. A palette of teakwood, cool indigo blue and soothing green accents predominate, reflecting the natural beauty of Koh Samui's famed coconut plantations.

The Tea Salon in our welcome retreat lounge is the heart of our Spa – a gathering place for guests to relax and take in the incredible views through our panoramic windows or on the outdoor balcony.

Created as sanctuaries for privacy and pampering, the four single treatment rooms are designed to seamlessly blend with the natural environment, while the Couples' Spa Suite is surrounded by striking views and features a soaking tub for two, rain shower and luxurious side-by-side treatment tables.

IN SAFE HANDS

At Baan Thai Spa we have carefully selected our spa and beauty products from professional partners with a track record of high-quality standards, ongoing, well-documented research, and proven expertise. Along with a range of locally sourced products from Thailand, such as those from our signature provider Harnn, we have selected our treatment products from some of the best providers on the market today, including Lycon, Sothys and OPI.

Trained by world-renowned spa consultants, our staff and therapists are well tuned to the regimens and practices of our partners' products, as well as in the step-by-step techniques of each and every treatment, therapy and ritual we offer to our guests. With these principles in mind, Baan Thai Spa is the perfect place to discover and delight in your pampering and therapeutic needs.

Aromatherapy Massage | 60/90 mins
3,250/4,800 THB (single)

A classical massage consisting mainly of long strokes over oiled skin and kneading of the outer layers of muscle tissue to reduce stress and soothe sore joints and muscles. Aromatherapy has been practiced in one form or another since the beginning of civilisation. It is the enticing art of using oils extracted from aromatic flowers, herbs, spices, woods and fibres to enhance health and beauty. For your massage you can choose from a selection of five unique oil blends.

Oriental Oil Massage | 60/90 mins
3,250/4,800 THB (single)

For our most popular signature massage, your therapist uses palms, thumbs, fingertips and hand heels to draw upon a fusion of Eastern and Western techniques. You'll receive the benefits of Thai pressure points – typically a 'dry massage' – however, we use a splash of pure massage oil to incorporate soothing Swedish effleurage strokes and allow floating movements. Perfect to relieve tension, increase vitality and flexibility.

Sports Massage | 60/90 mins
3,250/4,800 THB (single)

This deep tissue massage targets sore muscles and enhances muscle recovery to soothe the body after exercise and from the stresses of daily life. Enjoy the relaxing strokes of our classic massage combined with medium to firm pressure compression and light stretching to promote circulation, flexibility and muscle recovery. The Sports Massage can be customised to target problem areas, ease stress and muscle pain, and increase circulation.

Pre-Natal (Maternity) Massage | 60 mins
3,250 THB (single)

A custom-made treatment for expectant mothers. The maternity massage involves applying a gentle, healing touch to alleviate lower back discomfort and fatigue, while improving elasticity and nourishing the skin. This massage is performed while you lie on your side or back, by specially trained therapists, to promote ultimate comfort during this sensitive time.

Traditional Thai Yoga Massage | 90/120 mins
3,850/4,900 THB (single)

Thai yoga massage has been used for centuries in Royal Thai Palaces. This ancient form of bodywork incorporates gentle yoga-style stretches with choreographed movements to attain fluidity and balance of motion. Thai massage (*nuad bo-rarn*) techniques send energy freely along the 'sen' pathways (energy meridians) thus aligning, balancing and allowing the free flow of energy throughout the body. Thai massage is helpful not only to stimulate the circulation of the blood and lymphatic systems, but as with yoga practice, Thai Massage also improves the body's immune system, promoting a longer, healthier life.

Thai Herbal Hot Compress Massage (*Luk Prahkob*) | 90/120 mins
4,550/5,900 THB (single)

Experience the wonderfully soothing scent of heated herbal packs (*prahkob*) plus the therapeutic effects of Thai massage at its best with this combination of gentle body manipulation, performed with *prahkob* to detoxify and alleviate muscular aches and pains. The heated *prahkob* invites back muscles to relax and ease with our unique oil blend ‘Tropical Mist’, massaged into the entire body. Relaxation comes from the harmonious balance of scent, herbal remedies and therapeutic touch.

Chi Nei Tsang | 60 mins
2,950 THB (single)

This ancient Chinese technique focuses on the internal ‘Chi’ organ or energy transformation. Chi Nei Tsang translates loosely as “working the energy of the internal organs”. It is a powerful internal organ massage performed on the abdomen in order to assist with improved digestion and vital energy. This massage helps release physical toxins from the body, clearing emotional charges that are stored in the organs, and consequently unwinds tensions that are manifesting in other parts of the body. This allows the body to return to its natural state of good health. Chi Nei Tsang is a truly holistic therapy in that it integrates the physical, mental, emotional and spiritual aspects of one’s being through the power of touch and breath.

Indian Head Massage | 60 mins
2,950 THB (single)

The art of Indian head massage is a popular Ayurvedic form of healing and relaxation used widely in Asia to relieve daily tension and stress. The Indian head massage includes neck, shoulders and upper arms as well, working deeply over the muscles and pressure points to promote relaxation. Moving throughout the scalp, gentle massage techniques are used to stimulate and revive this area and the entire head is covered to encourage circulation, oxygen and nutrients to the area. The effect of this treatment is to relieve physical and mental ailments and increase oxygen supply to the brain, thereby relaxing muscle and nerve fibres to help stimulate hair growth.

Foot Reflexology | 60 mins
2,950 THB (single)

This method dates back 2,000 years and involves stimulation of acupressure points in the feet which have a direct connection to the various organs and glands in the body. Reflexology is based on the Chinese meridian theory of ‘energy pathways’ in the body that have endings in the extremities. As an alternative to traditional massage, this therapy uses aromatic oil and helps boost the immune system, and guides the body to a more balanced state of equilibrium.
